

November 2017

We are currently inviting sponsors for the 7th Joint Nordic Conference on Remediation of Contaminated Sites, NORDROCS 2018, which will be held in Helsingør, a part of Greater Copenhagen, on September 3-6, 2018.

NORDROCS 2018 offers a unique platform for meeting professionals working in the field of contaminated sites in the Nordic countries and the countries around the Baltic Sea. More information can be found on the conference website: www.nordrocs.org.

A sponsorship of min. DKK 10.000 (~ €1.350) will give you multiple publicity opportunities:

- Sponsor logos and names on the official NORDROCS website and on the front cover of the conference program/compendium, final Call for Abstracts flyer and the "Register now" flyer
- Your logo will be shown on the screens before/after sessions and during breaks

We would also like to draw the attention to the possibility of presenting company activities in the exhibition area. The fee for an exhibition stand will be DKK 6.000 (~ € 800). The exhibition area is also the area for coffee breaks and other social activities bringing maximum exposure to the publicity material from the exhibitors and provides a very good opportunity to present products and/or other news to the conference delegates. The exhibition area is limited – "first come, first serve basis", priority is given to conference sponsors.

It is also possible to book a "package" solution with sponsorship, exhibition stand and participation fee for a total of DKK 19.000 (~€ 2.550).

If you are interested in sponsoring NORDROCS 2018, applying for an exhibition space or if you have any questions regarding sponsorship please contact the conference secretariat Resia, Ulrica Edström, on e-mail conference@resia.se or the representative in your country: Paul S. Cappelen, Norwegian Geotechnical Institute, Miljøringen (paul.cappelen@ngi.no).

We look forward to hearing from you!

With the very best regards,
on behalf of the Organizing Committee, NORDROCS 2018
